

BEGINNING FIBER OPTICS

INSTRUCTOR: Jarred Douglass

CLASS DETAILS

- 4 Sessions
- Monday/Wednesday
5:00pm - 8:00pm
- 10 People Max

MATERIALS

There will be an online course outline to complete **before** class begins. Classwork will be assigned upon course registration.

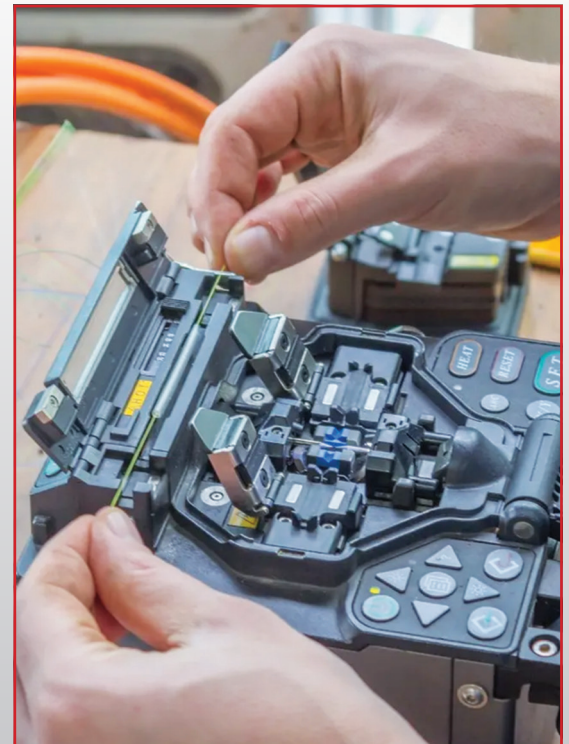

**MORE THAN A JOB...
A CAREER!**

This course is an introduction to Fiber Optics. Topics discussed will be optical fiber, connecting hardware, codes, standards and practices, testing, and fiber optic network design, with added hands-on training. The fiber optic installer must understand the manufacturers specifications and be following the National Electrical Code requirements. Students will get hands on experience with Fusion Splicing, Optical Time Domain Reflectometers (OTDRs), Visual Fault Locator, Laser Source, and more.

12 C.E. CREDITS

* PLEASE NOTE:

All classes require a valid email address to participate; class confirmation will be emailed to student; student must attend all classes for hours/credits; valid dues receipt required for all classes, no exception; priority on classes will be given to 595 working members first.
