

BASIC SURVEYING

INSTRUCTOR: Jason Bates

CLASS DETAILS

- 1 Session
- Saturday
8:00am - 3:00pm
- In-person
class room: 127
- 10 People Max

**MORE THAN A JOB...
A CAREER!**

Basic Surveying and Field Engineering for Journey Workers explores coordinate geometry, field surveying practices, field procedures, cut sheets, and plan interpretation. Designed for construction journey workers and field engineers, participants will master layout control, reading survey markings, using horizontal laser levels, cable locators, and basic Trimble operation. Bring your calculators to engage in hands-on activities, building practical skills for accurate field surveying and engineering tasks in real-world construction projects.

7 C.E. HOURS

* PLEASE NOTE:

All classes require a valid email address to participate; class confirmation will be emailed to student; student must attend all classes for hours/credits; valid dues receipt required for all classes, no exception; priority on classes will be given to 595 working members first.
